

After-School Programs

What's for Dinner?

Thursdays, Sept 22 through Oct 13, 4 – 5 pm
Grades 1–4

Who eats what for dinner? Join SM&NC education staff as we discover what's on the dinner menu for our farm animals, otters, turtles and even us! We'll help to feed some of our feathery and furry friends on the farm, feed and handle the reptiles and amphibians in the nature center and even discover where our food comes from by harvesting in our own organic vegetable garden.

This unique, interactive program will feature hands-on experiences with live animals, cooking with local food and chances to help harvest (and taste) some of the end-of-season produce. This class is a must for your budding farmer or gardener. Limited to 12 children for a great small group experience, so register early.
